

Petroleum Geology For Non Geologist

Ir. Rovicky D. Putrohari (IAGI President 2011 - 2014)

October 22 th – 23 th, 2015

Bali

Petroleum Geology For Non Geologist

Investment Fee : IDR 14.000.000,- / participant

The course fee includes meals (2x coffee break and lunch), training kits, training materials, group photograph, certificate. In order to allow sufficient time for arranging travel and processing document, participants are recommended to make an early enrollment.

About The Course

This course was design for oil and gas staff with non petroleum and geo-scientist background, including finance, procurement, secretary, safety and security. The objectives of this training course is to provide an overview of the complex and comprehensive concept in the oil and gas industry with the mainly an operation in Indonesia. This two days course will concentrates on upstream Oil and Gas exploration and production, from new ventures, exploration, and exploitation.

You Will Learn

- **Introduction:**

- General Oil and Gas Industry
- Upstream vs Downstream

- **New Venture Activities**

- Acquiring new block
- Bidding process

- **Drilling activities**

- **Basic Production Sharing Contracts**

- **Exploration activities**

- Geological activities (studies and surveys)
- Fundamental principles of petroleum geology
- Features of a good source kitchen
- Migration pathways and reservoir traps
- Geophysical activities (survey)

- **Production activities**

- How production are undertaken

Who Should Attend

The course is intended for non-technical professional who work in the oil and gas (petroleum) exploration and production businesses who require an understanding of the modern exploration-production activities : including administrative, human resources, accounting, legal, finance, technical support personnel and new engineer.
