CARBONATE SEDIMENTOLOGY AND DIAGENESIS
THEIR IMPACT ON RESERVOIR QUALITY AND DISTRIBUTION

1st – 4th May 2012
HILTON HOTEL
BANDUNG, WEST JAVA - INDONESIA

Instructor : NGAKAN ALIT ASCARIA, PhD
Duration : 4 Days Workshop
Level : Intermediate

About The Workshop:
This four-day course introduces the principle of carbonate sedimentology, seismology, stratigraphy and diagenesis and how to utilize seismic data to interpret carbonate reservoir geometry and characteristics as applied to hydrocarbon exploration and development geology. Learning objectives stress the principles that shape carbonate accumulations and the development of interpretive skills.

The course emphasizes the development of original depositional, stratigraphic or diagenetic models by highlighting process-response relationships on a facies scale and basin dynamics on the scale of carbonate platforms.

You will learn:
- Day 2: Sedimentary Facies Patterns, Depositional Models and Nomenclature, Carbonate Stratigraphy of Platform.
- Day 3: Evolution from Sediment to Rock: Carbonate, Sedimentation Diagenetic-Reservoir.
- Day 4: Field Trip.

Who Should Attend:
Geologist, geophysicists, petrophysicist, drilling engineer, and other personnel who work in oil and gas industry and interesting in carbonate reservoir for exploration and development.

Investment Fee:
IAGI Member: IDR 19,800,000 / participant; Non Member: IDR 20,300,000 / participant (Excluded accommodation and tax)
The workshop fee includes meals (2x coffee break and lunch), training kits, training materials, group photograph, and certificate. In order to allow sufficient time for arranging travel and processing document, participants are recommended to make an early enrollment.

INSTRUCTOR:
Ngakan Alit Ascaria, PhD. was born on May 26, 1966. He received his Doctor of Philosophy (PhD) degree with subject of Carbonate Reservoir and Regional Geology from University of London, United Kingdom. He has been working for oil & gas industry for 12 years. His working experiences start from year 1998-2005 in North Sumatra area, West Java, South Sumatra, East Kalimantan, East Java, East Sulawesi and Papua with job function of seismic interpretation, and 2005 – 2006 in North Lombok area Regional Mapping and lead assessment.

He is a lecturer and a course instructor for professionals in carbonate reservoir for exploration and development at Institute of Technology Bandung, University of Indonesia and University of Padjadjaran. Active in writing papers and publications. There have been 11 publications covering various subjects of geology and petroleum exploration. Two of his papers named by "Carbonate play concept in Sopa and surrounding areas: an alternative model for hydrocarbon occurrence, Musi Platform, South Sumatera Basin" and "Integrated study of acoustic impedance modeling and seismic facies to understand reservoir distribution: Kamundan Blok, Irian" has been chosen as a best paper in 1999 and 2001. In 1991-1997 he got a scholarship from British Petroleum for Ph. D. program and in a year 2000 he received a Geoscientist Award from Pertamina.

INVESTMENT FEE:

IAGI Member: IDR 19,800,000 / participant
Non Member: IDR 20,300,000 / participant
(Excluded accommodation and tax)

Unless prior arrangements are made with IAGI, payment may be required well 14 days in advance of the workshop date to guarantee your seat.
The workshop fee includes meals (2x coffee break and lunch), training kits, training materials, group photograph, and certificate. In order to allow sufficient time for arranging travel and processing document, participants are recommended to make an early enrollment.

We advice you to reserve the accommodation at your earliest convenience.

Registration will be closed on April 23, 2012
(Late enrollment may result in workshop cancellation)

CANCELLATION, SUBSTITUTION & NON ATTENDANCE POLICY:
Tuition fees are transferable but not refundable. Notification is required to substitute another participant, no later than 5 working days prior to the program, should the nominated person be unable to attend. Late cancellation sometimes causes events to be abandoned. Non attendance participant will be full charged as all preparations will have been done.

Registration Form

1st – 4th May 2012
HILTON HOTEL, BANDUNG, WEST JAVA - INDONESIA

☐ *Yes! I will attend on IAGI Workshop 2011

Attendee Name :
Job Title :
Company :
Office Address :

Main Business :

Office Phone Number : Ext.
Mobile Phone Number :
Email Address :

IAGI Member : ☐ *Yes / ☐ *No
Investment Fee : IDR 19,800,000,- / IDR 20,300,000,-
Paying : ☐ *by Cash ☐ *by Bank Transfer
☐ *by Company Invoice, send invoice to:

Investment Fee:
The Investment Fee includes meals (2x coffee break and lunch), training kits, training materials, group photograph, and certificate (excluded accommodation and tax). In order to allow sufficient time for arranging travel and processing document, participants are recommended to make an early enrollment. Unless prior arrangements are made with IAGI, payment may be required well 14 days in advance of the workshop date to guarantee your seat.

Registration will be closed on April 23, 2012. Late enrollment may result in workshop cancellation

Paying by bank transfer (copy attached):
Transfer to : Ikatan Ahli Geologi Indonesia
Account number : 123 008 5005 314 (Bank Mandiri KCU Wisma Alia, Jakarta )
Send the registration form and copy of bank transfer to email : birokursus@iagi.or.id or FAX: +6221-83702577

Cancellation, Substitution & Non Attendance Policy:
Tuition fees are transferable but not refundable. Notification is required to substitute another participant, no later than 5 working days prior to the program, should the nominated person be unable to attend. Late cancellation sometimes causes events to be abandoned. Non attendance participant will be full charged as all preparations will have been done.
